

Blah blah blah.  
Let's look at our data using a seed of 1

```
print(mydata)
```

```
## [1] 1
```

Blah blah blah.  
Let's look at our data using a seed of 2

```
print(mydata)
```

```
## [1] 4
```

Blah blah blah.  
Let's look at our data using a seed of 3

```
print(mydata)
```

```
## [1] 9
```
